COVERAGE

This monthly checklist includes monographs, monographic serials, semi-annual and annual serials, and new serials published by the State of Missouri and received at the Missouri State Library during the month of coverage. Job announcements, news releases and other ephemeral materials are not listed. All serials, including periodicals, irregular serials, and annuals are listed in Missouri State Government Serial Publications. Both the monthly list and the serials list are in order by Missouri State documents classification number (MoDoc number).

FORMAT

Each entry in this checklist consists of the following elements when available or applicable: 1) MoDoc number; 2) symbol (*) identifying document as part of the Missouri State Documents Depository Program; 3) title; 4) statement of authorship or responsibility; 5) date of publication; 6) number of pages; 7) frequency; 8) additional bibliographic information which might help in identifying or retrieving the documents, such as series identification, dates of coverage, alternate titles, prices, etc.; 9) OCLC control number; 10) shipping list number for depository publications. Corrections to previous issues follow the last entry of each month.

AVAILABILITY

The Missouri State Library has available for loan single copies of the documents listed. Requests for permanent copies must be directed to the issuing agency. Inclusion of a title on this list does not guarantee that an agency has copies available for general distribution. A list of state agency addresses is on the following page. Request documents by title, date and series title and number. Please do not request documents from the agencies by MoDoc number, as these may not be meaningful to the agency.

DISTRIBUTION

In January 1977 the State Library began distribution of state publications to designated depository libraries as authorized by 181.100-181.130 RSMo 1986. An asterisk (*) indicates a publication is part of the depository system. A list of depository libraries is inside the back cover.

INDEX

The words "Missouri" and "State" have been dropped from most agency names and the word order of many of these names has been inverted. This index includes entries for agency names, key words and titles. References have been added to lead the user to the simple form of each agency's name under which all titles by or about that agency have been grouped. Key words are capitalized, followed by an indented list of titles containing that word. Titles are entered in direct order, although a few long titles have been abbreviated or truncated. To enhance its usefulness, MoDocs classification numbers have been added to each entry. An asterisk designates publications sent to Missouri state depositories. All references are to page numbers in the June issue.
